

STB

Specialised TILT-BED

BRIAN JAMES TRAILERS

UNIQUE IS STANDARD

Specialised Tilt-Bed trailer - a unique family of product developed to provide solutions to mid-sized plant machinery transport requirements.

Unique loading abilities originate from the low and capable chassis with hydraulic tilt-bed operation. A number of tail ramp options exist offering the ability to handle the most difficult wheeled or tracked machines without damage.

The STB range can be specified to exactly match your specialist requirements, below are details of the main product variants, each with it's own specialist features. All trailers are supplied with fully compliant lighting equipment and EEC approved trailer braking on all four wheels. The galvanised chassis is guaranteed for 5 years. Our helpful and knowledgeable team are here to provide any further assistance you require, please call 01327 308833.

ACCESS

Scissor lift machines

make extreme demands on transportation equipment. They are heavy, compact, run on small usually hard wheels and have low body clearance. Solutions to these challenges have been systematically designed into the STB ACCESS specification. The operator is able to concentrate on safety without having to negotiate an extreme challenge in the process.

A comprehensive equipment list including a manual safety winch ensures that operation is straightforward. Lifts are restrained with an optional set (4 No) of H.D. ratchet straps.

Model	Length	Width	Gross Cap. (Kg)	Load Cap. (Kg)	Spare tyre	Price
T-STB-010 AC	3.0m	1.27m	2,600	2,100	YES	£ 2,965
T-STB-012 AC	3.0m	1.27m	3,500	2,850	YES	£ 3,330

CLEANING

Whether it is a scrubbing or sweeping machine on three

or four wheels the STB CLEANING specification can comfortably provide a dedicated transport solution. The lowest loading angle prevents damage to delicate and expensive wipers and brushes. The fully reinforced bed structure ensures that high point loads are well managed. The inherent stability of the low centre of gravity chassis provides a stable and safe towing experience.

Model	Length	Width	Gross Cap. (Kg)	Load Cap. (Kg)	Spare tyre	Price
T-STB-015	3.0m	1.80m	2,600	2,100	YES	£ 2,825

Grip in all weather is provided for by the 'SUPER GRIP' material shown here.

CHIPPING

The STB CHIPPING trailer overcomes concerns associated with standard trailers using loading or tail ramps. Traditionally when loading, a tracked machine crawls up to the point

that it crests over an apex, then continues.

Accepted wisdom is that this procedure is not satisfactory in the context of Health and Safety best practise.

A fully tilted trailer body and tail panel on the STB CHIPPING trailer means that the tracked machine is always in contact with the loading surface, remaining stable and entirely safe. STB is designed to ensure a solidly reliable performance. Extra attention has been given to vulnerable items such as mudguards and lights, all benefiting from an extra sturdy construction.

Model	Length	Width	Gross Cap. (Kg)	Load Cap. (Kg)	Spare tyre	Price
T-STB-010	3.0m	1.27m	2,600	2,100	YES	£ 1,985
T-STB-020	3.0m	1.52m	2,600	2,070	YES	£ 1,985
